

Tableau Assessment (31st July, 2021)

The data on 10 coffee products sold across 14 franchises have been provided. The monthly profits, monthly sales, target profit and target sales data are available.

The following steps are to be followed for the assessment :

1. Import the data.
2. Clean data using tableau calculations.
3. Analyse sales and profit across cities, products and months.
4. Analyse targets achieved.

We wish you all the best!
